

DEPARTMENT OF MILITARY AFFAIRS

Office of Inspector General

Audit Plan For The Period July 1, 2025, Through June 30, 2026

Introduction:

Section 20.055(6)(i), Florida Statutes, requires that the Inspector General develop long-term and annual audit plans based on the findings of periodic risk assessments. Standard 9.4, International Professional Practices Framework, published by The Institute of Internal Auditors, Inc. (IIA Standards), requires that risk-based plans be established to determine the priorities of the internal audit activity, consistent with the organization's objectives. The plan will show the individual audits to be conducted during each year and related resources to be devoted to the respective audits. The plan shall include a specific cybersecurity audit plan. By statute, the plan is submitted to the agency head for approval with copies submitted to the Governor's Chief Inspector General and the Auditor General.

Mission Statement:

The mission of the Office of the Inspector General is to ensure that the Department of Military Affairs and its employees maintain the highest level of accountability, integrity, efficiency, and compliance within programs and activities.

Risk Assessment Methodology Used to Determine Areas Selected for Audit:

The Office of the Inspector General conducted a risk assessment that included all programs with the Department of Military Affairs (Department). The risk assessment process is used to evaluate potential work based upon the knowledge of the current events and accumulated knowledge of senior staff to ensure that we meet the Office of Inspector General mission of promoting accountability, integrity, efficiency and compliance within the Department's programs and activities. Our risk assessment methodology included:

- Reviewing program objectives, financial information, applicable laws, various reports including internal and external audit reports, and other available program data.
- Inquiring with directorates and key employees regarding the complexity of their operations and obtaining their insight into operations and associated risks.
- Considering the potential for loss or theft of assets, possibility of not meeting program objectives, and whether or not there were any health, safety or welfare issues for the public, employees, clients, users, or recipient of program benefits.
- Ranking the information based on the unit's relative risk factors such as: size of budget and flow of funds; complexity and decentralization of operations; existence of certain internal control elements (i.e., policies and procedures, monitoring systems); experience of management; and the last time the program was audited by the Office of Inspector General, the Auditor General, or other oversight authority.

Enterprise Audit:

Section 14.32(2)(a) and (2)(c), Florida Statutes, provides that the Governor's Chief Inspector General (CIG) shall initiate and coordinate activities designed to deter, detect, prevent, and eradicate fraud, waste, abuse, and mismanagement in government. Additionally, the CIG shall request such assistance as may be necessary to perform the duties of the CIG. At the direction of the Governor's CIG, approximately 20% of our available time has been allocated to enterprise audit projects.

*Enterprise-wide Cybersecurity Audit of Data Protection and Security*¹

This audit will assess the Agency's implementation of data protection and security controls across data-at-rest, data-in-transit, and data-in-use. This includes evaluating physical, logical, administrative, and cryptographic safeguards to ensure confidentiality, integrity, and availability of information. The scope encompasses a comprehensive review of current cybersecurity policies, procedures, processes, and activities related to data protection, with particular attention to compliance with applicable laws, regulations, and organizational standards. The audit will also examine the effectiveness of the Agency's media protection and access control frameworks as part of its overall data security posture.

The objective of this audit is to evaluate Department controls and compliance with data protection requirements contained in the Florida Cybersecurity Standards (Rules 60GG-2.001 through 60GG-2.006, F.A.C.)².

NOTE: The Florida Cybersecurity Standards establish cybersecurity standards that state agencies must comply with in the management and operation of state information technology (IT) resources. The rules are modeled after the National Institute of Standards and Technology (NIST) Framework for Improving Critical Infrastructure Cybersecurity.³

Planned Audits:

Camp Blanding Management Trust Fund

Per Statute⁴, the Camp Blanding Management Trust Fund is created within the Department. The department shall deposit funds generated by revenue-producing activities on the Camp Blanding Military Reservation into the trust fund, which shall be used to support required training of the Florida National Guard. This audit will determine whether the Trust Fund is being utilized as required by law.

Post Exchange and Cooper Hall

Per Statute⁵, the Adjutant General shall establish a post exchange store for members of the Florida National Guard, their families, guests, and other authorized users. The post exchange store is located at Camp Blanding. Renovated and re-established for rentals on Camp Blanding is Cooper Hall. This audit will focus on both the

post exchange and Cooper Hall to ensure they are operating according to their policies and procedures, there is proper safeguarding of assets, and their financial reporting is accurate and reliable.

Construction Contracts

The purpose of this audit will be to review the construction contracting process for two new Readiness Centers located in Immokalee and Zephyrhills Florida. We will review the contracts for effectiveness and adequacy. We will also include a review of policies and procedures and the contracting process as a whole.

Carryforward Audit:

Cooperative Agreement Federal Reimbursements

The purpose of this audit will be to determine the efficiency and effectiveness of Federal reimbursements to the State under applicable cooperative agreements (i.e., Federal reimbursement for a percentage of State bills that are covered by a cooperative agreement).

Management Review:

Joint Enlistment Enhancement Program (JEEP)

At the request of the State Quartermaster, we will review this program for its effectiveness and potential errors to ensure proper internal controls are in place for its future operation.

Recurring Projects:

Internal Quality Assurance Review

Preparation of all required documents for a Quality Assurance Review. This is a self assessment to ensure the Office of Inspector General at the Department of Military Affairs is in compliance with all International Standards for the Professional Practice of Internal Auditors. This self assessment will be used by the State Auditor General during their Quality Assurance Review of the Office of Inspector General every three years.

Family Readiness Program

Section 250.5206, Florida Statutes, requires the Office of Inspector General to conduct a semiannual review and an annual audit of the Family Readiness Program.

Performance Measure Assessment

Section 20.055(2)(a)(b), Florida Statutes, requires each state agency's Office of Inspector General to advise in the development of performance measures, standards, and procedures for the evaluation of state agency programs. Further, the Office of Inspector General is to assess the reliability and validity of their agency's performance measures, and make recommendations for improvement, if necessary.

Long-Term Plan:

For the fiscal years 2026-2027 and 2027-2028, we plan to ensure the services of the Office of the Inspector General provide the most benefit to the Department and provide coverage for those areas identified as the highest risks. Our goal is to achieve and maintain an appropriate balance between audit, investigative, and other accountability services. Based on our estimation, the following represents the time allocation per current State position:

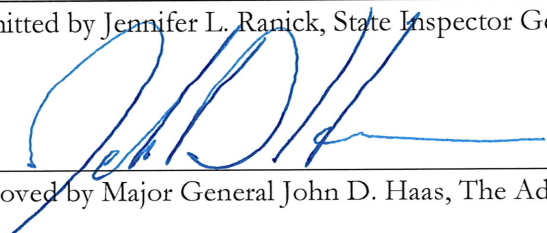

Total hours for a two year period (2 position x 104 weeks x 40 hours)	8,320
Audit/Program evaluation and management assistance	3,984
Enterprise audits	400
Investigation activities (10%)	832
